# 54" Outdoor Gas Grill

**Like their indoor counterparts, Wolf outdoor grills are precision instruments constructed of heavy-duty stainless steel. This 54-inch grill has powerful burners every five inches for even heat distribution. An electric rotisserie with infrared burner produces succulent poultry and roasts. The 25,500 Btu sear zone emits exceptionally high heat to sear meats faster and deeper. The Wolf 54-inch outdoor grill is designed for a built-in application only. Available in natural or LP gas.**

*Model OG54 shown with model BM13 burner module and accessory doors.*

## FEATURES

- Built in application only.
- Crafted of heavy-duty stainless steel.
- Each 25,500 Btu grill burner is individually contained for independent heat control.
- Infrared sear zone—direct heat sears meats to seal in juices.
- Radiant heat from ceramic briquettes mixes with direct heat for more thorough grilling.
- Two-position rotisserie system with two 14,000 Btu infrared burners.
- Stainless steel burner grates.
- Halogen lights illuminate the grilling surface.
- Signature red control knobs are LED lit for night grilling.
- Electric hot surface ignitors operate by pushing in control knobs.
- Double wall hood front for insulation.
- Hood assist system with concealed springs for easy opening and closing.
- Three-position warming rack stows away when not in use.

LED lit control knobs.

Hot surface igniter.
